SEARCH ENGINE OPTIMIZATION

Search engine optimization (SEO) is the process of optimizing your online content so that a search engine likes to show it as a top result for searches of a certain keyword.

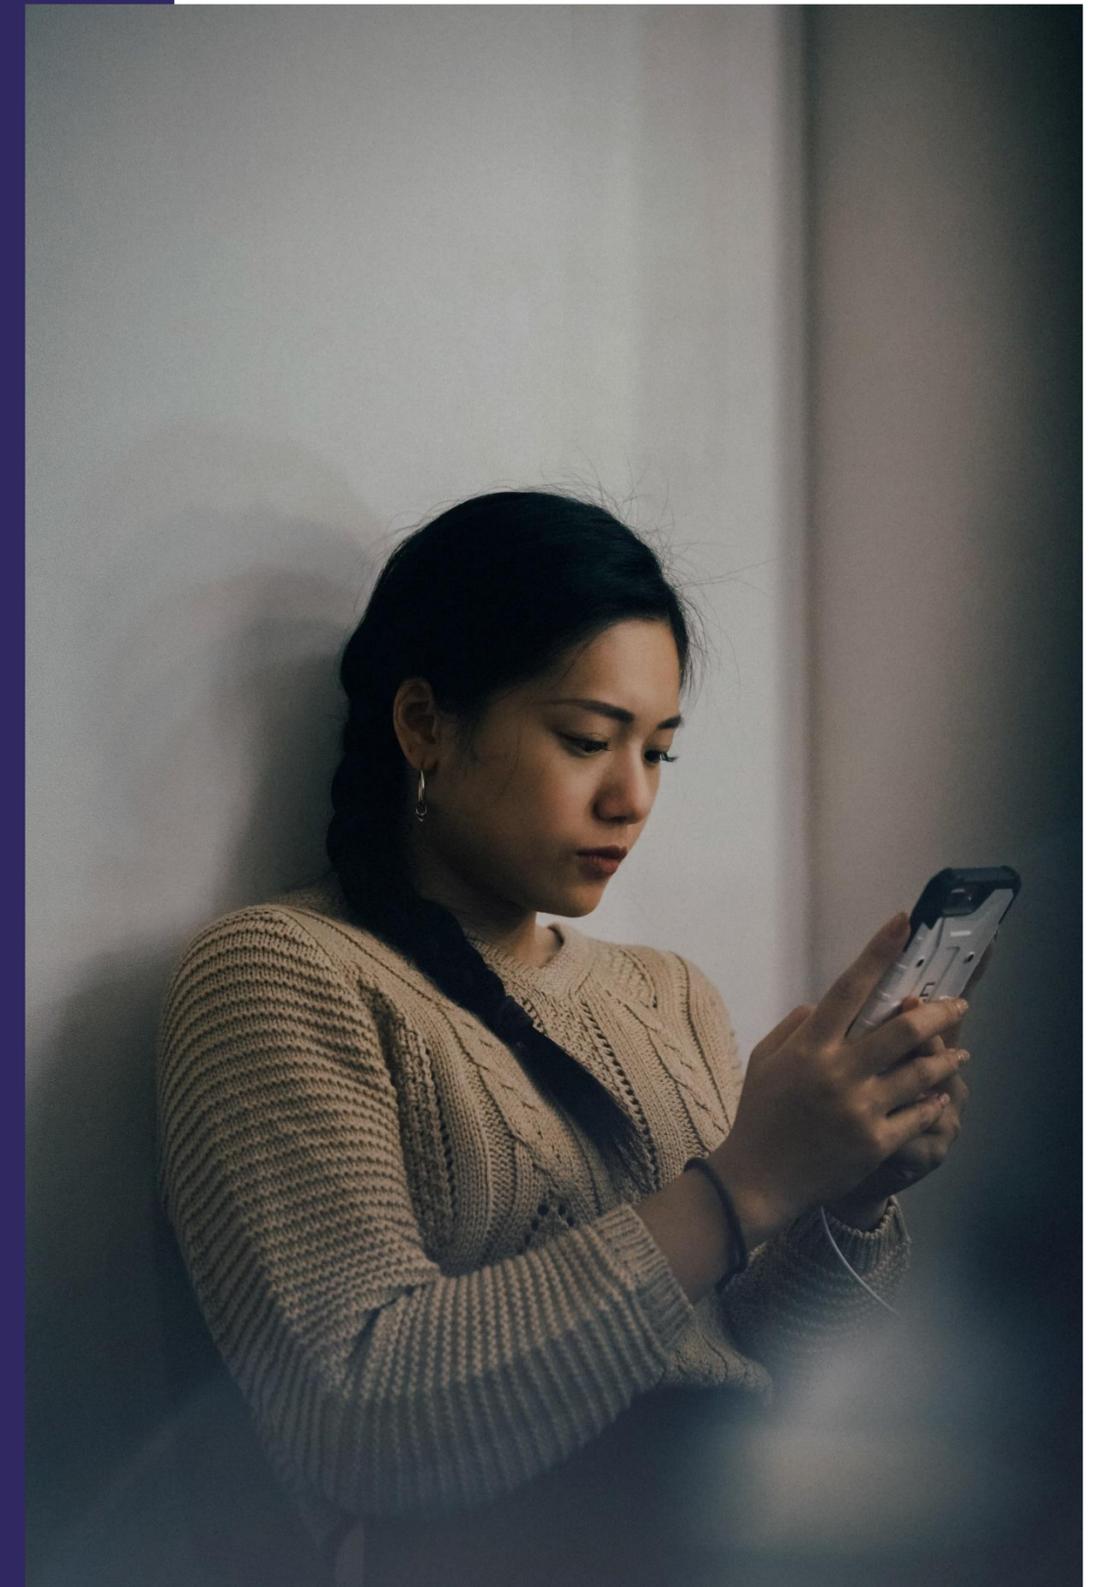

It combines creative and technical aspects that influence search engine rankings and can be broken down into three main areas:

- On Page SEO
- Off Page SEO
- Violations

WHY SEO?

- Optimizing your website's SEO can give you an advantage over your competition and help you quickly increase traffic as well as boost your sales.
- Websites that appear on top in search results enjoy better brand recognition, leading to higher sales.
- Local SEO increases Traffic, Engagement, and Conversions. It is one of the ways of enhancing visibility, and it allows new customers to find answers from the nearest and most authoritative brands.
- Compared to other digital marketing channels, SEO is relatively cheaper and has the most significant ROI when done right.
- High-quality SEO will always provide a means for brands to discover and leverage new opportunities.

STATS

First 5 seconds

of page-load time have the highest impact on conversion rates. Website conversion rates drop by an average of 4.42% with each additional second of load time.

SEO drives 1000%

more traffic than organic social media

Text

will always be the foundation of search so making sure the text around your website's assets is descriptive will help them rank well in search

**THE TALE OF
AK'S COMMERCE ACADEMY**

CA Anand Kasat

**AK'S COMMERCE
ACADEMY**

UNDERSTANDING THE BRAND

AK's Academy's humble beginnings date back to 2012 when the dream of an academician, Prof. CA Anand Kasat to provide quality education in the field of Commerce began with a classroom of 7 students. Our journey from 7 to a whopping 400 students is one of hard work, dedication and consistent successful results. Our students pass their university as well as CA exams with flying colors every year. Students securing top AIRs every year has become a tradition. Students from Satara as well as all around Satara flock to our center of learning due to Kasat Sir's innovative and meritorious teaching methods. Prof. CA Anand Kasat, cleared the difficult CA exam at a young age of 21, and believes anyone can succeed with the right guidance and consistent efforts.

Our dream of bringing affordable, world – class education to Satara has manifested in the result of this Academy. Our staff boasts of successful CAs who themselves hold classes and impart knowledge. Our Academy is the epitome of quality learning without the added cost of moving to a bigger city as we bring the world class education home, to your town.

WHAT DID WE DO?

On Page SEO was improvised with well researched SEO content across the website.

Under SEO, monthly blogs were rolled out which were again SEO centric and relatable for the target audience.
